Professional Operations Fail to Induce Following Outside Circle of Traders.

DAY'S NEWS IS DEPRESSING

Sharp Break in Reading As Result of Situation in Coal

(By Associated Press.)

NEW YORK, March 27.—Yesterday's upward movement of prices was reversed in the stock market to-day. The nominal ground for the change in the course of the market was the disagreement between cont miners and operators at Indianapolis. The more probable explanation of the price movement and the one generally accepted was that yesterday's purely professional operations had falled to induce any following outside the circle of traders. The general list merely followed in the wake of the Reading movement. That stock was heavy from the outset, but its decided break on the aniouncement of the rupture of negotiations at Indianapolis gave a decisive course to the whole list. The selling was not pressed urgently beyond the realizing of yesterday's purchases, and the market showed symptoms of dropping back into its state of semi-stagnation. The announcement of the increase in the dividend rate on Anaconda Induced some buying of Amalgamated Copper and caused quite a brisk raily, in which the metals stocks shared largely. The call money market was tranquil to-day, and rates for time loans were quotably lower in spite of the aproach of April lat requirements. Last prices of stocks were above the lowest of the day, but the closing tone was easy.

Bonds were ricady. Total sales, par value, \$2,170,000. United States bonds were all unchanged on call.

But Liverpool and New Orleans were celling here on the differences, and the market soon increased the loss to a matter of 8 points on the active months, May and July both selling at 11.02. The room was bearish, expecting to find stop-loss criers below it crists for the active months, but the weard of commission that the sell as from clique brokers, and the market railled to about the closing figures of the previous day. This was followed by a second reaction on reports of more liberal spot offerings and less active denand South, but the bears were unable to force May below 11.55 on this break, and during the later trading the bulls became more aggressive, forcing the shorts to cover and sending May up to 11.50 or within 2 points of vesterday's highest. July sold at 11.16 or 5 points on this read, and the gain of 10 points for May. The close was 12 or 3 points off from the best, but steady, with May at was warm, but rains were reported in the central belt, with the forceast pointing toward further precipitation.

CONFERENCE ENDS

American Delegation Proposes Final Settlement Complicated Question.

Caten Question.

(By Associated Press.)

ALGECIRAS, SPAIN, March 27.—Ambassador White-and the others of the American delegation to the conference on Moroccan reforms were showered with compliments to-day for what is regarded as their sagacious intervention, which has assured a solution of the last remaining serious difficulty of the conference and a final sattlement of one of the most delicate and complicated questions ever broughty before the conference for coclesion.

Police Proposal,

Police Proposal.

Austria's police proposal yesterday left the German and French delegates still occupying totally opposed standpoints relative to the police inspection. Mr. White, seeing the danger of disagreement, took the initiative in an attempt to save the situation.

He and, his colleagues drew up a fresh scheme, laying down the proposition that the inspector shall report simultaneously to both the Sultan and the diplomatic corps at Tangler, the latter having authority to order inquiries into the working of the Franco-Spanish police scheme, thus guaranteeing the carrying out of the conference's decision and safethus guaranteeing the carrying out of the conference's decision and safe-guarding foreign interests and commer-cial transactions.

cial transactions.

May Order Inquiry.

The diplomatic corps, after informing the Sultan, may at any time order the inspector to inquire and report, should any interested government present a complaint. Before presenting this plan to the committee, Mr. White approached the principal delegates. The British, Italian and Russian delegates unhesitatingly approved the proposal and promised it their fullest support.

Mr. White then conferred successively

fullest support.

Mr. White then conferred successively with the French and German delogates, who agreed as to the practicability of the idea and consented to submit the scheme of their respective governments, whose concurrence they consider to be virtually certain.

Scheme Incorporated. Meantime the committee incorporated the scheme in their proposition for presentation to the full conference, which later adopted it provisionally while awniting the French government's recommendation, which the delegates do not doubt will be accorded.

The effect on the conference of the acceptance of the American suggestion was immediately noticeable. One of the neutral delegates present at the moment remarked as the French and German delegates were being photographed togother:

gether: "That photograph constitutes the first

signature of accord."
The successful notion of the American delegates has made certain the speedy end of the labors of the conference. No one now foresees the slightest obstacle to final accord.

Next Plenary Sitting. The conference has decided to hold its next plenary sitting on Thursday. In the interim the committee will meet several times in the endeavor to conclude the settlement of details this week.

Austrian Court in Somewhat of Quandary to Know What to Do in Storer Case.

Do in Storer Case.

(By Associated Press.)

VIENNA, March 21.—The foreign office received this morning a dispatch from secretary of State Root regarding Ambassador Storer, as follows:

"I have the honor to advise your excellency that the President Tas been pleased to terminate at once, and without any such delay as would be incidental to the transmission of a letter of recall by mall, the authority of his Ambassador, Mr. Storer, to represent him. The President has accordingly recalled Mr. Storer, whose representative functions have already ceased. This action will be supplemented by a formal letter of recall which already has been signed and will be presented to you in accordance with the former custom in such matters.

"Secretary Rives of the Vienez Emissions."

ters. "Secretary Rives, of the Vienez Embassy, has been named as charge. I request your excellency to receive him and treat him in that capacity."

Embarrassing Situation.
Foreign office circles are not quile sure how to meet the request of President Roosevelt. The officials stick to the opinion that there is no precedent for not regarding Mr. Storer as ambassador as long as he stays in Vienna without having presented a letter of recall. The key to the embarrassing situation is now in Mr. Storer's hands. He will reach Triesta Wednesday night and proceed at once to Vienna. A letter of recall can only be presented, according to court and diplomatic ettquette, by an ambassador to the emperor, and not to the foreign minister, and by..no; menns by a charge.

The foreign office to-night informed Secretary Rives that the government accepts his nomination as charge until Ambassador Storer returns to Vienna, conditional upon Foreign Minister Goluchowski, who left to-day to attend his chargements.
